

# Move to the Cloud

## with Nsight's AWS Migration Services

Nsight's Amazon Web Services (AWS) center of excellence gives you access to the tools, processes, and expertise you need to make your cloud migration as worry-free as possible.

### Why Move to Amazon and IaaS?

Shift CAPEX to OPEX

Lower Costs  
(IDC says 70% Lower TCO)

Elastic (no guesswork)

Speed and Agility  
(IDC says 5x faster)

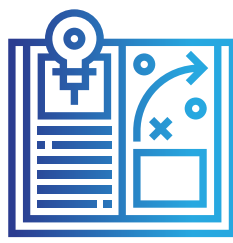

Avoid Non-differentiated Heavy Lifting

Go Global in Minutes

### What does Nsight AWS Migration Services offer?

#### We Plan

- ✓ Solution design and future state architecture including hybrid configurations
- ✓ Migration strategy and execution plan

#### We Build

- ✓ Automated deployment of multi-region scalable AWS environments
- ✓ Deploy security controls and establish governance model
- ✓ Testing and performance optimization

#### We Run

- ✓ Ongoing performance monitoring and cost optimization
- ✓ Managed Services Metrics and Support Model implementation
- ✓ Decommissioning of legacy environment – Support as Needed

Nsight can help you move the following applications to the cloud:

SAP ERP

SAP Hybris

SAP HANA

SAP Analytics

Oracle E-Business Applications

Why

Nsight is a **system integrator** that has deep expertise and competency in delivering Cloud/Hybris (mid of on-prem vs Cloud) solutions to your business.

Nsight experts are **extremely familiar with AWS Cloud Integration**. Our Trained and certified technicians have migrated our own Demo solutions (SAP ERP/CRM/Hybris), Oracle E-business) and are intricately knowledgeable about how to integrate to these systems with on-Premise applications.

Nsight team has **integrated CRM Cloud** (Salesforce, Oracle Cloud) to multiple software systems. These integrations have been performed using third party software like Boomi, Cast Iron, Informatica and Pervasive as well as by using custom-code written-in Microsoft .NET and Java.

Our experts have worked on **all types of CRM data integration, mobile technologies and cloud integration applications** like SAP/Sybase Mobility, SAP PI, IBM Websphere, Kony, and other SaaS integration solution providers.

Nsight eliminates the painful process of data integration by **working with internal teams as well as vendors collaboratively** to identify, design and automate your data transaction interfaces.
