

ORACLE E-BUSINESS SUITE

Improve your Business Processes through Oracle EBS

Oracle E-Business Suite is the most comprehensive suite of integrated, global business applications that enable organizations to make better decisions, reduce costs, and increase performance. It was designed to help organizations meet the challenges of doing business in the new global economy, from increased complexity to a whole new level of competition. It allows organizations to implement, manage, and scale global applications easier and at lower costs.

BENEFITS

Next-generation development framework for improved productivity

Better cross-application navigation and rapid cross-responsibility

Built-in best practices and reusable business services

Option to control features by profile

End-to-end coverage of security and customization

The Nsight Advantage

Nsight can help your organization deploy Oracle Applications by providing highly specialized skills and knowledge to augment your existing team in a specific area of a project or by taking complete ownership of the development and implementation of the solution.

Our core team of consultants has more than 10 years of IT experience in providing functional, technical and project management expertise in Oracle Applications. We can help you through all the phases of Oracle Applications deployment right from business process re-engineering to implementation and post-implementation support.
