

ORACLE CLOUD MIGRATION

Enabling database migration to Oracle Cloud seamlessly with zero downtime.

CASE STUDY

QUICK FACTS

Client

The oldest electrical company in USA, recognized as a Top Electrical Contractor by ENR with \$2B revenue

Product

Trusted and reputed for building quality electrical and communications installations

Network

Multiple offices across the country

THE CHALLENGE

The client envisioned a complete migration of their IT Infrastructure and third-party tools to the Oracle™ ERP Cloud as a part of their digital transformation initiative to better enable all its employees using a unified platform.

Considering they are in the business of essential utility services, any downtime would not only affect their bottom line, but could prove devastating for their end customers as well. The efficiency and timeframe for this migration was paramount to the client's business success.

THE SOLUTION

Leveraging its best practices and extensive experience in Oracle™ Cloud Services, Nsight managed the client's IT infrastructure and secured data migration using a unified portal.

The technical experts designed and implemented the solution and migrated the consolidated assets to Oracle™ Cloud Infrastructure. With a tailor-made solution, the client was able to improve efficiency in their infrastructure and server management. Nsight was the nestor in end-to-end transition, from design to deployment and support.

BUSINESS BENEFITS

- A new unified platform to manage its IT Infrastructure efficiently.
- A better UI for cross-application navigation and cross-functional communication.
- Reduce over-provisioning, and move from fixed to variable costs, lowering TCO.
- Easily Lift and Shift applications to the cloud (IAAS & PAAS)
- Migrate / Upgrade to Oracle Fusion Applications (SAAS & PAAS)
- Automate standard operations, allowing IT to invest more on value projects.
