

EXECUTING A FULL-SCALE DIGITAL TRANSFORMATION USING SAP S/4 HANA® AND SAP Ariba®

A leading biotechnology company leverages SAP S/4HANA® and SAP Ariba® to enhance business growth and productivity.

CASE STUDY

QUICK FACTS

Client

One of the prominent biotechnology company in the United States that manufactures synthetic DNA.

Products

The client is the creator of a revolutionary silicon-based DNA synthesis platform that offers precision and scale previously unavailable to its customers.

Network

Their synthetic DNA is used by companies in the medical, agricultural, industrial, and chemical industries to better lives and improve the sustainability of the planet.

THE CHALLENGE

The fast-growing business of the client was suffering due to its lack of a unified IT plan, absence of proper process controls, and lack of integrated connectivity between its various systems.

This was due to their dependency on multiple small, customized systems that were causing significant inefficiencies and high operational costs. They were still reliant on tedious manual processes using Excel sheets for processing complex daily business tasks.

The client also had limited support resources, which resulted in long response times whenever they needed to resolve issues and enhance business functionalities.

THE SOLUTION

Nsight's Digital Transformation experts designed, developed, and implemented a full-scale digital transformation strategy for its client based on leveraging the capabilities of SAP S/4HANA® and SAP Ariba®.

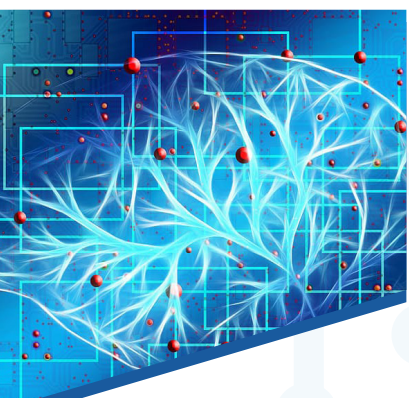

Nsight was involved in all phases of the project, which included business process and solution design, solution development, testing, implementation, and post-go live support.

To improve business adoption and provide exceptional user experience, Nsight leveraged SAP Fiori® to provide easy-to-use business apps that can be accessed anytime, anywhere.

SAP Activate® combined the methodology, tools, and content for accelerating the system implementation.

SAP Ariba® Procure-to-Pay, Guided Buying, Supplier Enablement, and Spot Buy streamlined catalog maintenance and simplified the entire procurement process.

SAP Solution Manager® streamlined project management activities and provided a central repository for solution documentation and test scripts.

BUSINESS BENEFITS

Nsight's successful implementation of SAP S/4HANA® tightly integrated with SAP Ariba® provided the client with a fully integrated, real-time enterprise resource planning system that gave them:

- Improved day-to-day productivity
- Improved control and visibility across its business systems
- Significantly reduced manual processes and errors
- Streamlined transactions and invoice management
- Simplified, real-time analytics models
- A single source of truth which drives proactive decision making

ABOUT NSIGHT

Nsight helps organizations orchestrate their digital transformation around business solutions in Customer Engagement, User Experience, ERP, IoT, Analytics, Security and AI & ML. Our strong partnerships with SAP, Oracle,™ AWS,™ Salesforce™ and Microsoft™ help us stay up to speed with the most recent innovations and technologies and provide a wide spectrum of system integration services.

In today's digital age, we are the perfect partner you can count on as we recognize the digital and real-life challenges of your industry. We help you align your business in every step to give you the competitive advantage.

We support organizations of all sizes and deliver turnkey projects in crunch timelines. We discover, design, deliver, manage and continuously enrich business solutions so our clients can meet their customer's changing requirements. We offer Managed Services Packages where we provide all services and support under one umbrella with our proven Global Delivery Model.

Our experts bring in deep industry experience and we understand the marketplace you are in, your industry and the technology that can solve your current pain points and future needs. And we bring together our proficiency with bespoke regional proximity, global competencies and our trusted principles - constantly finding the right balance for each individual client.

By incorporating our best practices to ensure uncompromised quality and lower TCO with flexible engagement models, we have been successfully transforming businesses across the world for over 15 years.
