

# Nsight Oracle Practice

Nsight offers end-to-end Oracle services in strategic advisory, implementation, and managed services. We provide functional, technical, and project management expertise in Oracle applications.

We help clients provide highly specialized skills to augment their existing IT capabilities or take complete

ownership of the development and implementation.

Our team offers a complete lifecycle approach with our Oracle practice, from assessment to business process re-engineering through implementation and post-implementation support.

## Nsight's Oracle Practice Services

### » Oracle e-business suite

Manage the complexities of global business environments and consolidate global operations. Nsight delivers deep industry and systems integration expertise in implementing and managing Oracle E-Business Suite. We offer a fully integrated, comprehensive suite of global business applications that provides better business information for effective decision-making.

### » Oracle database management

Nsight offers all Oracle new-age database management services. Nsight has an entire team of certified Oracle experts proficient in designing, building, tuning, managing, and maintaining Oracle databases. Experts on multi-platforms have proven technical expertise in database management and support.
